# ORBOT PADS

## SuperZorb Pads

### 14" ORBOT LiO and 17" Orbot Vibe, SprayBorg & LiFE

#### Size

21" diameter (perfectly oversized to prevent marring walls)

#### Quality and materials

- 50% Cotton & 50% Polyester

#### Carpet

- Superior soil extraction (since we are not using a big vacuum)
- Extremely fast drying times
- Non-abrasive on carpet fibers (safer than scrub brushes)
- Use with **Environ Encapsulation Cleaner**
  - Per gallon dilutions with hot or cold water:  
**Light** = 1 oz. 1:128 **Medium** = 2 - 3 oz. 1:64 - 1:42 **Heavy** = 4 oz. 1:32

#### Hard floors

- Use for power mopping and scrubbing
- Slightly mist floor so pad can stay dry, yet clean effectively
- No need to use safety cones for slip and fall

#### Laundry/cleaning

- Can be washed and reused over 100 times
- Cost per square foot is essentially free

### 11" ORBOT SLiM

- Same benefits as 14" & 17" Machines
- Glide stripes reduce friction to increase run time (battery operated)

## MicroFiber Pads

### Use with the 11" ORBOT SLiM

- Used when operator does not have the means of laundering SuperZorb Pads
- Wash and wring them out to keep cleaning
- Good for rougher type carpets as microfiber glides easier

SuperZorb Pads 14" & 17" Machines

SuperZorb Pads for 11" ORBOT SLiM

MicroFiber for 11" ORBOT SLiM

## AgiClean Pads

### 14" and 17" ORBOT Machines

- For removing dirt from heavily soiled carpets
- AgiClean Pads can also be used to clean and scrub many other types of hard floors, as well to lightly polish floors such as vinyl, linoleum & VCT
- Can be used with Environ Encapsulation Cleaner
- Pads are disposable

AgiClean Pads 14" & 17" Machines

## UltraLift Pads

### Use with all ORBOT machines

#### How it works

The dual-action orbital technology creates a suction effect and creates 100% contact with the floor

- Extracts soil out of microporous hard floors
- Durable, high-quality material and design

It's important not to over soak pads. Wring pads out if necessary by hand or with mop wringer.

UltraLift Pads

## AkwaStrip Pads

### Use with all ORBOT machines

- Strip and re-coating process
- Reduce labor & save time with no mess or toxic chemicals
- Eliminate the use of fans, boots, slip & falls, masks, and the need to ventilate area for work
- Use both sides of pad for convenience
- Removes floor finishes on VCT, Vinyl, linoleum, as well wood
- Use to lightly sand and prep wood floors

AkwaStrip Pads

## StoneFlash Pads

### Use with all ORBOT machines

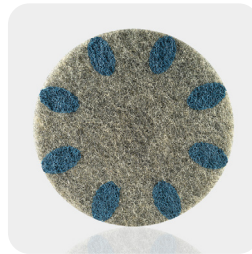

- 5 step process
- Steps 1-2 grinding, 3 honing, 4-5 polishing
- You can stop at pad 3 for a semi-gloss finish
- Use step 5 as maintenance pad (drop to 4 for light scratch removal, then finish with step 5)
- 3-5 passes (3-5 min/M2 \*10ft2) vs 10-15mins average other process per m2/10ft2
- Use on soft stones like marble terrazzo limestone, etc
- Chemical free

Stone Flash Pads

**STONEFLASH  
COMPLETE KIT**  
Grind, hone & polish  
(Steps 1-5)

**STONEFLASH  
STEP 1**
