

# ORBOT

## CARE INSTRUCTIONS

# SuperZorb Pads

**IMPORTANT:** Pre-wash your Soil Extraction Pads before initial use. Machine wash with regular detergent and hang to dry.

**WASHING INSTRUCTIONS:** After cleaning, store used pads in an air tight plastic bag until you are able to wash them. Run pre-soak cycle with water, detergent and approximately 16oz. of bleach. Hang to dry. Do not place in dryer.

**TIP:** Soaking used pads in water and carpet cleaning detergent while at the job site will help to release soil and stop evaporation from bonding dirt into the pad.

\* SuperZorb pads can be used on average up to 100 washings; 30,000 sq.ft (2800m<sup>2</sup>) on carpet and 500-800 sq.ft (45-75m<sup>2</sup>) on hard surfaces.

SuperZorb Pads for 14" & 17" Machines
