

**IGNORING THIS
WILL COST
YOU A TON OF
MONEY**

ORBOT METHOD

Save money and time by making your cleaning process faster, safer, easier, and healthier.

Data is calculated cleaning 100,000 ft²/month

LABOR

\$45,000+ annual labor savings per ORBOT machine

- Cost of 1 vs 2 employees
- Clean faster at twice the speed, or more!

RESTORE VS REPLACE

\$50,000 per year in savings by restoring not replacing

(see floor replacement savings example)

- ORBOT Method extends the life of floors
- Restore floors like new

WATER

100,000 gallons water saved each year

- ORBOT method uses 50x less water vs traditional methods (2 gal vs 100 gal)
- 2 gal cleans up to 6,000 ft²

CHEMICALS

\$34,000 annual chemical savings

(\$0.34 cents per premixed gallon of cleaning solution x 100,000 gal per year)

- 50x less water = Big Savings \$ \$ \$

CONSUMABLES

Virtually FREE accessory costs

- ORBOT pads & brushes cost an average of \$0.005 - \$0.0005 cents per square foot to deep clean and restore any floor

FLOOR REPLACEMENT SAVINGS EXAMPLE:

A facility with 50,000 ft² of carpet, replaced every 5 years could cost \$250,000 (materials + installation), or \$50,000 each year.

If the ORBOT Method extends the life of the carpet by only 2 years, that's a \$100,000 dollar savings within a 7 year span.

ORBOT is confident to extend the life of flooring beyond expectations!
